Delivery 130 — presentation brief

Scope

129 artists, 31 quarters, Q1 2019 to Q3 2026.

Headline

\$469,833,610 gross streaming revenue (₦704,750,415,210).

By year

Year	Gross streaming revenue
2019	\$11,358,002
2020	\$19,022,130
2021	\$32,540,083
2022	\$58,603,840
2023	\$83,815,500
2024	\$89,917,031
2025	\$93,887,637
2026	\$80,689,387

Outlook

Projected growth of **8.192% a year**, fitted on the last 12 complete quarters. Growth is not uniform across the history: it exceeded 100% to 2022 as coverage expanded, fell to about 4% through 2025 as the market matured, and is re-accelerating.

Quarter	Projected
Q4 2026	\$26,641,062
Q1 2027	\$26,224,069
Q2 2027	\$28,770,807
Q3 2027	\$28,976,807
Q4 2027	\$28,823,544
Q1 2028	\$28,372,390
Q2 2028	\$31,127,762
Q3 2028	\$31,350,637

What this measures, and what it does not

- Streaming revenue is estimated from observed audience levels and observed volumes using published per-unit rates. No platform reports its payouts to this system.
- Employment is a **national** figure for the whole sector. It is not these artists' employees.
- The domestic/export split is measured in 23 of 31 quarters; the rest are blank.
