

NATIONAL BUREAU OF STATISTICS

Delivery 130

Package overview

Nigeria Music Analytics System

Delivery 130 · 129 artists · Q1 2019 – Q3 2026

1 September 2026

Database layer — DELIVERY130

This package ships as flat files rather than a database dump, so that a reviewer needs no database software to check it. `schema.csv` lists every table, column and row count in `04_Datasets`.

Table	Columns	Rows
Artist_Master_List	8	129
Artist_Residency_Classification	13	129
Daily_Metric_Observations	13	4,243,988
Domestic_Production_Account	8	31
Employment_Male_Female	6	15
GNI_Diaspora_Account	8	31
Gross_Export_Revenue	10	3,829
Gross_Streaming_Revenue	19	3,829
Hosting_Production_Costs	6	155
National_Accounts_Aggregates	8	62
Quarterly_Aggregates_Full	8	125,162
Revenue_And_Cost_By_Platform	13	264

The grain of `Gross_Streaming_Revenue` and `Gross_Export_Revenue` is one row per artist per quarter, plus one `=== PERIOD TOTAL ===` pseudo-row per quarter. **Exclude the pseudo-rows when summing** — including them double counts every quarter exactly.
